

# Maintenance Mate Supplementary Manual

## Triumph Tiger 800 ABS 2010-2017 (MM-T01)

Secure the bike on a stand.

Remove the rear seat and locate the diagnostic connector.

If the speedometer is set to MPH reading, change the indication in the dash menu from MPH to Km/h.

Plug the MM connector to the OBD connector.

Set the service interval with the UP and DOWN arrow keys.

# Maintenance Mate Supplementary Manual

## Triumph Tiger 800 ABS 2010-2017 (MM-T01)

Touch and hold both the UP and DOWN arrow key.

The service lamp disappears.

The new service interval is loaded.

If the speedometer was in MPH reading prior to the procedure, change the indication in the dash menu back from Km/h to MPH.
