

Notes:

- The QSH-CKP Harness Kit is to be used ONLY WITH the iQSE-2 control unit
- Do NOT attempt to connect the QSH-CKP wires to the ignition coil wires
- On bikes without a 12V charging system, connect the Red and Black wires to a 9V battery
- If the bike has two CKP sensors, connect the two Green wires to the signal wires of both

to spark plug(s)
